

# cottonbomb info

„The rough voice sounds like Nick Cave, the band grooves like Audioslave.“ (Stadtstreicher Chemnitz)

A dirty Alternative sound mixed with some Blues and Country, meets the space between ZZ-Top, Audioslave and John Spencer Bluesexplosion.

After six years, 3 records, and more than 100 shows in Germany and Europe, the band comes up with its unique sound.

Snotty vocals and heavy slide-guitars are supported by a straight rocking rhythm section. With their intensive live performance they always make the crowd dancing wild. Cottonbomb shared the stage with bands like: Such a Surge, Farmer Boys, Mutabor, Marr, Scycs, Deep Insight (FIN), Lampshade(DK).

The recent records have been released on the Chemnitz based Whirlwind Records.
